

ADHESIVES FOR AUTOMOTIVE INTERIOR

Adhesives for Automotive Interiors

With the FOLCO REACT HP - series FOLLMANN innovates the classical FOLCO REACT polyurethane hotmelt system by introducing proprietary technology and raw materials (patent-pending) based on silan-modified acrylates (DualCure) or optionally modified with UV-curable acrylates (MultiCure). Designed for dashboards, trunk panels, ceilings, door claddings, mats and seats, FOLCO REACT HP reactive polyurethane hot melt revolutionizes automotive interior assembly. The introduction of combined technologies opens new dimensions in terms of adhesion to difficult-to-bond substrates, processability, curing/crosslinking, and final properties like bonding strength, long term heat stability, chemical resistance and environmental impacts. A long-lasting performance and contribution to a comfortable, well-crafted driving experience is guaranteed.

Our Polyolefin adhesives play a pivotal role in the recycling of polypropylene parts, facilitating a more sustainable automotive industry. By sharing fundamental chemical components, our Polyolefin adhesives enable seamless bonding and disassembly during recycling processes. Embracing circular economy principles, we help reduce waste and minimize our ecological footprint.

Your benefits

- + System solutions for automotive interior like trunkfloor, headliners, retainer-bonding, backpanel- and dashboard lamination.
- + Process-optimized, customer-specific products
- + Highest media and temperature resistance
- + Broad adhesion spectrum

Interior Trim bonding.

- + **Broad adhesion spectrum**
- + **longlasting highly resistant bonds**
- + **Clean and efficient processing**

ADHESIVES FOR AUTOMOTIVE PRODUCTS

	Name	Basis	Application
FOLCO REACT HP	50501	PUR/Silane hotmelt	trunk floor lamination via roll coater. Long open-time, high tack.
	50801	PUR/Silane hotmelt	for active carbon cabin air filters
FOLCO REACT	10770	PUR hotmelt	trunk floor, headliner, side panel production. Short open time, for reactivation. Very high green strength.
	10771	PUR hotmelt	retainer-bonding, for ABS.
FOLCO MELT	16101	PO hotmelt	floor mats, foam-bonding, trunkfloor
	IC1649	EVA hotmelt	floor mats
