

# ADHESIVES

## FOR WOOD + FURNITURE

With our high-quality non reactive and reactive hotmelt adhesives of the FOLCO MELT and FOLCO REACT HP and FOLCO REACT brands, you will always achieve a perfect result in all applications of modern furniture and component manufacturing.

They are universally applicable and support you in the manufacture of safe and sustainable products: They are characterised by consistently high quality and are easy to use.

At our modern production facilities we manufacture hotmelt adhesives with excellent adhesion properties, which guarantee reliable bonding of your products. We also contribute to the sustainability of your products by using bio-based raw materials for some of them.

### Your benefits

- + Hotmelts with increased roller stability of the melt.
- + High heat resistance for extremely durable products.
- + Economical production due to optimised application quantities and accelerated processing times.
- + Clean running properties guarantee products without reworking

Product sample:  
Furniture assembly

**FOLLMANN**  
INCORPORATED

- + PUR and EVA offerings
- + Excellent melting and flow properties
- + Clean and efficient processing
